

## The ONLY Mobile Processing Solution Built Exclusively For Cash Discount

TakeCharge Anywhere is a mobile processing platform for iOS and Android devices that utilizes the popular Cash Discount checkout process. Take Charge will virtually eliminate merchant's processing fees, while providing their customers with more options to pay.

TakeCharge Anywhere runs on any iOS or Android device. You'll simply install the application onto your device, pair the Bluetooth or audio jack card reader, and you're ready to start processing!

Each merchant boarded on TakeCharge Anywhere will receive access to their own TakeCharge Anywhere Merchant Portal. Manage users, track records of previous batches, and manage app settings from any desktop or mobile device.
